**There's a supernatural killer on the loose...**

Elliot Cross didn't believe in monsters. At least, not until his brother died at the hands of something unnatural.

Four years later and a string of impossible deaths leave the police baffled. Consumed by a desire to shine a journalistic light on the supernatural world, Elliot sees a chance to make a difference. Enlisting the help of his (only) employee, Samantha, he quickly identifies the culprit – a demonic mime artist whose invisible creations are fatally real.

Way out of his depth, Elliot's only hope is renowned demon hunter Gabriel Cushing. But tracking down Gabriel is only the beginning... The search for a way to end the demon forever will take Elliot and Sam across the country, uncovering lost history, buried secrets, and a few new truths about themselves.
